EDUCATION

BSC Computer Science - Kirinyaga University (September 2021 – October 2025) - Computer Science Graduate with a strong foundation in software engineering, data science, and machine learning.

TECHNICAL SKILLS

- Frontend: React.js, Tailwind CSS, Redux, TypeScript, JavaScript
- Backend: Node.js (Hono, Nest.js, Express) Laravel, Flask, Django
- Databases: PostgreSQL, MySQL, SQL, MSSQL Server
- Tools & Platforms: Git, GitHub, Azure, Linux, Docker, Redis, Jenkins, Kubernetes
- Others: Machine Learning, Data Science, Data Analytics

PROJECTS

- **FreshCart Grocery App:** a smart grocery shopping platform that connects fresh produce sellers directly to consumers through door to door deliveries, designed to make access to farm-fresh goods easier and faster. [link](#)
Tech Stack: React, Typescript, PostgreSQL, TanStack Router, Next.js, AI.
- **Careerwiz- AI Career Advisor:** Built a full-stack ML-powered web app that delivers personalized career guidance to students, increasing decision-making confidence by 60%. [link](#)
Tech Stack: React.js, Tailwind CSS, Node.js, FastAPI, TensorFlow, Python, Scikit Learn, Azure ML, Azure Web Apps.
- **Vehicle Management System:** Created a full-stack rental management platform with Stripe integration, enabling seamless online payments and vehicle tracking. [link](#)
Tech Stack: React.js, TypeScript, Redux, Tailwind CSS, Figma, PostgreSQL, Azure Web Apps.
- **Kilele Bracelets Telehealth App** - Developed the website for Kilele Health Bracelets, a telehealth app for health management through delivering a seamless, user-friendly application that helps users effectively monitor and manage their health. [link](#)
Tech Stack: React.js, PostgreSQL, Redux, Django, Docker.

EXPERIENCE

- **DevSecOps Engineer - Serianu Limited (February 2026 - Present)**
As a DevSecOps Engineer, I manage and automate the deployment, monitoring, and scaling of applications, ensuring high availability and performance.
- **Software Engineering Technical Trainer – Teach2Give (September 2025 – January 2026)**
Lead software engineering training sessions for cohorts on TypeScript, SQL, NestJS, React with redux, .NET and other modern web technologies as well as DevOps and Cloud Technologies. Designed and delivered curriculum tailored to industry standards. Mentor students through hands-on full-stack projects and career guidance.
- **Software Developer - Kilele Bracelets (November 2023 – September 2025)**
Implemented user-friendly interfaces and responsive design to enhance accessibility and engagement, Spearheaded the development of the Kilele Health Bracelets website, a telehealth platform for health monitoring and management.

LEADERSHIP AND COMMUNITY DEVELOPMENT

- **Gold Microsoft Learn Student Ambassador (January 2024 – Present)**
Organized and co-led events that impacted over 1,000 students through workshops on Azure, Python, AI, and other technologies.
- **Computer Society of Kirinyaga Secretary General & Machine Learning Lead (April 2024 – April 2025)**
Contributed as a full stack developer on community projects and organized tech events, including hackathons and workshops. I also led machine learning and data analysis track as well as mentorship sessions, enabling students in our tech community to build real world AI powered solutions.

CERTIFICATIONS

- Azure AI Fundamentals - Microsoft June 2025
- Azure Fundamentals – Microsoft June 2025
- EF SET English Certificate - April 2024
- Software Development - Teach2Give July 2025
